

Daniel Cruz

Full Stack Web Developer

danielcruz.webdev@gmail.com | 801.589.3759 | Layton, UT | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

SKILLS

JavaScript | React | Node | Redux | Express | Python | SQL | HTML | CSS

PROJECTS

Booked Up - Back End Developer - An app designed to connect authors with publishing agents [GitHub](#)

HTML | React | Node | CSS

- Green field project used to create a platform for private communication between authors and agents
- Created library functionality using database storage so that authors can upload recent literary works
- Built our own API to create a dashboard for authors to filter through authors and their work

DevDesk Queue - Front End Developer - An app for creating and tracking help desk tickets [GitHub](#)

HTML | React | Node | CSS

- Simple ticket creation/tracking app used to reinforce the concepts of a full-stack development cycle
 - Created ticket functionality using database storage so that users can submit tickets
 - Created an API for users to track ticket submissions, status, and completion
-
